Memo from the President

I think we had a good successful year. Thanks to everyone. We have had a lot of help and I appreciate it all. I want to thank Rob Waller and Johnny Assay for overhauling the sled's transmission and Bo Waller for quickly building a new yoke after the original was stolen. Thank you Jeff Gregory and Rob Waller for fixing the garden sled. The track and grounds always looks great. I hope to see everyone at the Awards Banquet, January 7, 2012. I am looking forward to handing out awards. *Bill Mugler*

Welcome New Pullers

Matt Woods, from Weirsdale, and Johnny Edwards built Matt's 1993 Chevy 1500 for pulling in the 2WD Modified class. We first saw Matt pull in October. By November Matt took home a trophy. Congradulations Matt.

Lawrence and Jan Hayman drove over from Port Orange. Lawrence pulls a 1953 Farmall Super M in the heavier Super Antique and Open Gear classes. Hope you all enjoyed our track and will come back for 2012.

Job Vacancy

Stan Bainter will give up garbage duty. Thanks Stan for keeping the grounds clean. Let Bill know if you will take the job, we'll have a key to the gate made for you.

Through our website www.flpullers.com, the Quarter Scale Team of students from the University of Florida found us and came down to Zellwood for our October pull. I heard they were extremely excited over our club's unexpected hospitality. Dave and Sue Garrant met the kids in October and are helping them with their invaluable experience and expertise. Pat Bainter lives in Gainesville and has made it a goal to help the team raise money and Jeff Gregory has found the needed parts to get the tractor built. Sarah Luther, Team Captain, wrote this article currently on the website's front page. The team has created a plan, a budget and time line. They are trying to raise \$7170 and heading to Illinois on May 29, 2012. Should we set aside a little money and buy a sponsorship?

University of Florida Quarter Scale Tractor Student Design Competition

UF's American Society of Agricultural and Biological Engineers (ASABE) chapter has formed a team for the upcoming Quarter Scale Tractor Student Design Competition, to be held May 31- June 3, 2012. UF hasn't had a team in several years and they need a lot of help to get started again. The Quarter Scale Tractor Student Design Competition allows students to analyze market factors, document their development and test

efforts, and sell the merits of their product, just like they would as professionals in the engineering industry. They have to purchase a specified set of tires and engine and will compete in four different aspects of the competition: written design report, team presentation, static design judging, and performance-consisting of a tractor pull and maneuverability course. The specific rules, including maximum weight, width, and length, change every year and teams must design and build their tractor according to the current 18 page rulebook. Teams must establish a budget and secure funding for the building cost of each year's tractor. That's where we hope you come in.

Our small team of students is working very hard to make a good showing at the competition next year. However, this is only possible if our team is able to acquire the necessary funds, tools, and materials to build their design. Funds will be used for: Ground Transportation (Fuel and Truck), Steel/ Aluminum, Lodging, Parts, Etc. Sponsors are always welcome to come visit us in Gainesville and see our work in progress.

For more information on the competition visit: <http://www.asabe.org/membership/preprofessionalsstudents/14-scale-comp.aspx> or contact Sarah Luther, UF ASABE Fundraising Treasurer, Quarter Scale Tractor Team Captain, (719)357-1630, sarahlou91@yahoo.com
